

N.º 2

Certificados — Violín Giulio Degani (Venezia, 1914)

A violin by Giulio Degani  
Venezia, 1914

Description

This is to attest that the instrument illustrated on the reverse side of this certificate is in our judgement a violin made by Giulio Degani, Venezia (1914), and is original in all its parts.

The violin is a good and typical example for the work of this maker during his late Venice period before his move to the United States in 1915.
